1. Below is a complete list of installations of the Svit National Enterprise in Gottwaldov. This list corresponds to the situation of the Svit Works  The Svit factories in Gottwaldov formed two large areas, one in Zlin and the other in Otrokovice, both of which are parts of the town of Gottwaldov. The annexed sketch of the Zlin area shows the exact location of the Svit factories there, while the sketch of the Otrokovice area shows the exact location of the Svit factories there. Numbers of buildings given in the lists which follow and in the attachments are in accordance with the original numbering of these buildings as used by the Svit Works; however,  the construction department of the Svit Works was working on  whether the new  As to the use of the factory buildings, I believe that at least 90% of the buildings are still being used for the same purposes as given in this list.

2. There were four kinds of factory buildings in the Svit Works in Gottwaldov:

- a. Iron supporting frame, glass and brick (single-story buildings only)
- b. Concrete buildings with saw-tooth-shaped roofs (single-story buildings only)
- c. Concrete buildings (two or more stories)
- d. Wooden buildings (old buildings used for storage)

Most of the buildings were of a standard size of 18 x 78 m.
